Dialekti VALSAMOU

Senior Data Scientist

About me Senior Data Scientist with six years of experience on the domains of Data Mining, Machine Learning and Natural Language Processing. I am currently the CSO of SparkUp, where I use the power of data and science to innovate and transform the way financial products are sold. In 2017 I defended by PhD thesis on Information Extraction from scientific text at Paris Saclay University. In 2015 I helped co-found a promising parisian startup, Compellia, by setting data-related technologies.

Experience

Since Nov 2016, CSO at SparkUp

Superpowering fundraising campaigns by AI, Financial modeling for startups and traditional companies. Supervising junior Data Scientists & closely collaborating with Product Development.

2015, Co-founder and Lead Data Scientist at Compellia

Bootstrapping data mining and extraction, ensuring high data quality and taking compelling event mining to another level via a robust in-house platform.

2010 - 2015, R&D Engineer/PhD Researcher at MaIAGE-INRA & LIMSI-CNRS

Information Extraction from scientific articles on biology.

2004 - 2009, Athens, Greece

IT, Computer networks and Linux services in various positions (IT lab SA, PriveNet SA, the Greek Parliament, CosmoTelco SA).

Education

2017, Paris Saclay Univesrity

PhD in Computer Science

2010, Paris Diderot University

MSc in Theoretical Computer Science (MPRI)

2009, Athens University of Economics and Business

BSc in Computer Science

Additional Training

Public Speaking, Project Management, Debating, Scientific Writing

Skills

Programming Python, Java, Perl, R, Matlab, JavaScript

Tools Versioning (Git, SVN), XML, \LaTeX , Linux, Windows, Mac
